Mr. [ ] has been appointed by the Congress of the United States of America as a special representative to solve an unusual spy case. Members of congress and their families have been threatened not to intercede. I write this letter at the expense of my life. I might obtain a pardon from a clean and lawful president, whomever that may be. Keep it quiet, if you please, but at the right time all public officials could be imprisoned.

We would appreciate that full cooperation be extended to Mr. [ ] In the opinion of a number of attorneys, all public officials in the United States of America are guilty of concealing tax fraud and maybe tax fraud. The president's job is up in the air.

Mr. [ ] will be appointed to a high position in a new administration. We all urge you to cooperate.

[redacted]

On March 15, 1984, [redacted] was located and interviewed at his residence by Special Agents of the Federal Bureau of Investigation (FBI). [redacted] claimed to have received the special representative appointment and the letters contained on United States Senate letterhead, which bore the signature Chuck Percy from Senator Percy's office after he had telephoned Senator Percy's Office. He could not recall to whom he spoke, nor could he recall the date of the contact. He stated that the letters were already typed when he received them. [redacted] admitted sending these letters and other letters to the University of Chicago, Ohio State University and other business entities which will be set forth below.

During the entire interview, [redacted] paced continuously. [redacted] stated that he was a former Certified Public Accountant but he had quit that work due to a disability. [redacted] admitted that this disability was a mental disability which he has had for the last six years. He is currently taking medication called Lithium.

b6  
b7C

There was observed on [redacted] kitchen counter approximately 100 bottles and jars which appeared to be various medications.

[redacted] was advised of the possible consequences for the unauthorized use of official government stationary, for impersonating an official of the United States government and for the unauthorized use of the signature of a United States senator. [redacted] stated that he would no longer do so as he has now been told not to.

On April 3, 1984, this matter was discussed with United States Attorney's office, Chicago, Illinois, and it was the opinion of the United States Attorney's office that this case lacked prosecutive merit in view of the fact that there lacked evidence of criminal intent and due to the admitted mental disability of [redacted]

The other entities which [redacted] admitted sending letters to which were similar to the ones directed to the University of Chicago and Ohio State University were as follows:
